

Remarks

Applicant has canceled without traverse the original claims 1-5 submitted at the International Stage. The applicant has instead newly added claims 6-10 to meet the format of claim language. What has been reflected in the applicant's amendment is structural change of paragraphs and sentences to phrasal alignments.

Although all the original claims have been canceled and the same number of new claims added, the applicant believes that the newly formatted claims 6-10 will serve to better deliver the inventive concepts disclosed in the description part.

Specification, drawing and abstract remain unchanged.

No new matters are included in this amendment.

Applicant now respectfully requests a timely examination of the PCT national stage application in consideration of this preliminary amendment.

Respectively submitted,

IPLA P.A.
